Venus phase movement and Pleiadian-Earth Energy™ collective shadows

The Pleiadians are guided by the light of Venus and have suggested that we open to that guidance as well, for Venus represents the energy of unconditional love.

In the Pleiadian-Earth Energy system, there is always guidance to move our consciousness from lower vibrational reactions to

people and situations to a higher vibrational response to life. As Adam Gainsburg¹ says, Venus offers us the chance to 'forge a foundation of open-hearted power and contribute it to a transformed society.' Can we move our consciousness from the deep ruts of pain, judgement and separation that are based on a mentality of thinking and feeling from the space of 'I' into a more 'Unity-based consciousness'?

Last month we experienced one of the darkest phases of Venus, **Immersion**, where Venus was the furthest distance from Earth and almost invisible. Many of us have also felt invisible or lacking something essential in our lives during this period. However, on 22 October 2022, Venus moved into the phase of **Transmutation** where she will be until 14 December. She is returning to us from behind the sun, preparing to shine her light into the darkness as we collectively step into a Pleiadian-Earth Energy Collective Shadow Cycle of opportunity for personal and collective change, defined below.

Additionally, the entire Venus Star moved in the sky into the position of Libra, radiating a harmony and balance that we have not collectively experienced since between 1771-1880, a time of great change on the planet. We would be wise to use the energy of the Venus Star in Libra and in the phase of **Transmutation** to support the changes we need to make in the upcoming Collective Shadow Cycle.

Collective Shadow Cycles occur every 260 days, the length of one Venus orbit around the Sun. They signify an opportunity for us to realign with cosmic truth and open our hearts to the greater reality. They encourage all the collective shadows of humanity to come to the surface so that we can change our beliefs, our behaviours and our sense of separation from each other and from Source. This Collective Shadow Cycle began on 31 October and continues through to 19 November.

We start this month, November, in the 13-Day period of the Pleiadian-Earth Energy of **Self-Regulating**. This energetic period brings opportunities to demonstrate competency by making difficult choices and conscious decisions. How can we self-regulate in the midst of chaos and collective darkness shadowing the world? How can we align with the light that is streaming into our collective shadows? By clearing the confusion that we have experienced, we can self-regulate and make the

choices we need to make personally and collectively. We can also allow Venus, the planet of unconditional love, to light our way.

During 10-22 November we will be in the 13-Day period of the Pleiadian-Earth Energy of **Illuminating**. During this period, we may become aware of many people's great attachment to the illusion in which we have been living, creating drama all around us. The saving grace of this energy is that it provides light to peer deeply into the illusion, laugh at how false it is and begin to change ourselves, and thus, our world.

From 23 November to 15 December, we will be blessed with the 13-Day period of the Pleiadian-Earth Energy of **Planting**, a lucky, energetic period that is good for new ideas and planting seeds for positive change. If we avoid being irresponsible or immature, the seeds we plant can and will change our future.

The 6-18 December phase takes us through a 13-Day period of **Evolving** Pleiadian-Earth Energy. We may experience disappointment as plans fall apart. However, as the old begins to crumble and boundaries change, new possibilities arrive, perhaps even some will show up from the intentions we set and choices we made in the period of **Planting** energy!

We close the year in the Pleiadian-Earth Energy of **Devoting** which begins on 19 December and lasts through the last day of this year. This is a community-oriented, harmonious energy that is perfectly aligned with our holiday season. Sometimes family challenges arise during the holidays, so we can use this energy to be sure that our loyalties are to the highest expression of who we are, not to inappropriate duties or false expectations of others.

During this period, we also experience another Venus Phase Change, as Venus moves into the phase of **Rebirth**. In this new phase, Venus provides us with the space to create a vision of a better, shared future in the new context we created through our intentions and our choices during the periods of **Planting** and **Evolving** Energies. Perhaps our holidays will be filled with kindness, grace and love.
